

## DAE-2021 B

### Two Channel Active In-Wall- Mixer

Made  
in  
Germany

#### APPLICATION

- Public Address and Voice Alarm
- Background Music
- Audio Visual

#### AREA OF USE

- Health
- Education
- Retail
- Hospitality
- Stadiums
- Transportation
- Theme parks
- Military

#### OVERVIEW

The unit is used mainly as audio input to any audio visual or professional public address audio controller and power amplifier. The main features are listed below:

- An active 2-channel mixer for connecting and simultaneously operating one microphone with a balanced XLR input and integrated Phantom power
- Setting for high/low pass equalizer for XLR Port
- A stereo sound carrier signal with input on a pair of cinch sockets
- 3.5mm stereo jack line input
- Each input has a scaled volume control and an LED function display for individual volume adjustment

- The output sum level can be switched internally from 0 dB to +6 dB.
- The Audio output is electronically balanced.
- Using a connection plug, a Bluetooth unit can be integrated, the model number is DAE-2036A.
- The Bluetooth receiver is produced with specific password for pairing. The password could be changed upon the request of the client
- In case of use of DAE-2036A, the three audio sources can be mixed.
